# Store/Inventory Management

Store Management Software maintains accurate store and inventory information in real-time. Stock can be allocated to orders as they arrive and your sales channels are updated. A professionally managed store has a process and a space within, to receive the incoming materials, keep them for as long as they are not required for use and then to move out of stores for use (Issue).

The Store/inventory management can benefit you with

- This Store management Software can also remove the possibility of double selling.
- Inventory Tracking.
- Easily manage customization, bundles & product variants.
- Reorder the right stock at the right time.
