

E- BILLING

INTERACTIVE DATA SYSTEMS LIMITED

Configure your thoughts..

Financial activities in the banking, billing and payment sectors have shifted from paper to digital. E-billing systems helps the recurring ebill and payment process from a paper-based format to an electronic format. Utility companies can use these systems to transfer bill from various locations of a company. e-bills software accelerate your transition from paper to digital, collect payments faster and give you the cross-channel visibility and capabilities you need to more efficiently manage in your business. e-billing systems works by eliminating the paper work and transfer the information stored electronically. In addition, by maintaining information in electronic form throughout the cycle, the electronic billing information can replace the physical transportation of paper documents. In the current system, paper documents are exchanged among participants.

How e-Bills Process is Beneficiary to your Business?

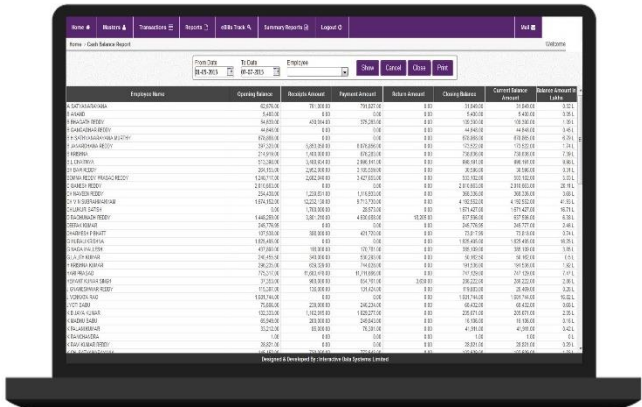

In the current system, paper documents are exchanged among participants while E-billing systems works by eliminating the paper work and transfer the information stored electronically. In addition, by maintaining information in electronic form throughout the cycle, the electronic billing information can replace the physical transportation of paper documents. Our E-billing Software helps you meet these expectations with the freedom to focus on your core business objectives. We provide insight and analysis on the latest consumer and payment trends. Our expertise can help you provide your organization with proven digital bill presentment and payment solutions that are intelligent, intuitive and interactive.
